

WHEN SUPERPOWERS COLLIDE

RDF 1985

The second scenario of the Superpowers series

RULE BOOK SUPPLEMENT

These new rules adapt the GEMMANY 1983 system to the special conditions of modern desert warfare in the Persian Gulf. If you have not played GEMMANY 1983, read those rules as you play your first game.

STRATEGIC STUDIES, INC.

INTRODUCTION TO RDF 1985

An NATO and Warsaw Pact tanks battled for control of the West German plain, as the Soviet Para Assault Regiment, flying at night from airfields in Soviet Central Asia, seized the strategic Saudi Arabian airfield at Dhahran. Soon huge Antonov AN 22 transport planes were landing at Dhahran, unloading T-72 tanks, BMP infantry combat vehicles, artillery, and BM-21 "Katyusha" rocket launchers. By morning, a large part of a Motor Rifle Division, veterans of desert combat in Afghanistan, was on the ground. By the end of the day, the most important Persian Gulf airfields were in Soviet hands.

Within hours, C-141 Starlifters carrying the paratroops of the United States Rapid Deployment Force took off from their airfields in Egypt. In the United States, C-5 Galaxies began taking on cargoes of armored personnel carriers and self-propelled guns. In the Indian Ocean, a U.S. Navy task force, carrying RDF armor and helicopters, set a course for the Persian Gulf.

RDF 1985, the second of the **WHEN SUPERPOWERS COLLIDE** scenarios, is a battalion-level simulation of the resulting battle. The rules are essentially the same as those in **GERMANY 1985**. This booklet describes the exceptions and the special conditions of desert combat that apply only to **RDF 1985**.

If you have played **GERMANY 1985**, you can begin to play **RDF 1985** immediately, referring to this booklet for the additional rules. The number before each rule refers to the **GERMANY 1985** rulebook.

If you have not played **GERMANY 1985**, start by playing the following game, referring to the **GERMANY 1985** rules as you go along, and noting the additions in this booklet.

1.0 PLAYING THE FIRST GAME

Follow the game-loading procedure described in **GERMANY 1985**.

- You will now begin a **SOLITAIRE** game, in which you are the American commander, and the computer plays the Soviet commander.

When the game options display appears, hit 3 twice to reduce the strength of the **RUSSIAN** force and to **EXPOSE** all the Soviet units to view.

The Russian units are already in place. Press the **SPACE** bar, and the game will begin with an American air-drop onto the desert.

1.1 THE MAP

Each hexagon of the 36 X 28 hex map represents 2.5 miles. On your screen, you will see one-twelfth of the total battlefield. A number or letter will tell which sector you are seeing.

Several new symbols appear in **RDF**:

	L. ROUGH		VILLAGE
	ROUGH		TOWN
	DAREE (Also indicates unfilled land)		OILFIELD
	DESERT		SEA
	BARREN (A salt flat common in the region)		

At the beginning of the game, all oilfields, villages, towns, and airfields are **RUSSIAN** owned. If an American unit moves into them, they will be American owned, and the symbol will change. They can change ownership any number of times during a game. For their importance, see **RDF VICTORY CONDITIONS (13/4)**.

1.2 MOVING THE CURSOR

To move the blinking cursor around the map, type the **COMMAND KEYS** pictured in the diagram at right.

1.3 UNIT IDENTIFICATION

The US forces have two new unit types in RDT

1.4 MOVING UNITS

Press **ESCAPE (Q-44) (F1)** to move the cursor to the first unit and to enter the **MOVEMENT PHASE**, and then use the **COMMAND KEYS** to move that unit.

When you've used up the movement allowance of that unit, the cursor will blink the next moveable unit. When you have moved all of your units, the cursor will blink. Press **CTRL (CONTROL) and E**, and then **E** to end your turn.

1.5 THE SOVIET MOVE

The computer will move all the Soviet units. During the Soviet Move, you can stop the computer by typing **ESCAPE (Q-44) (F1)**. While the move is paused, you can use any of the **SPECIAL KEYS** (see 14.6).

To resume the Soviet Move, press any key.

When the Soviet Move is finished, the cursor will begin to blink, indicating that the first four hours turn is over. Press **ESCAPE (Q-44) (F1)** to move your first unit again.

2.0 MOVEMENT

2.1 THE MOVEMENT DISPLAY

The RDT movement display shows the word **SMOKE**. If it is highlighted, the moving unit is in a smoke-filled hex. **PH (Miss)** and **PC (Nuclear Contamination)** are not shown, since they play no part in this scenario.

2.5 AIR CAVALRY

Air cavalry uses one Movement Point (MP) per hex. In addition to this, air cavalry units will use

2 extra MPs to enter a smoke-filled hex.

1 extra MP for each fighting enemy unit (SED).

(2 if the air cavalry unit is in TRANS mode)

1 extra MP if the enemy has air superiority, and the air cavalry is in TRANS mode.

Air Cavalry units cannot enter enemy-owned offroad, village, town or airfield hexes.

2.6 UNITS IN TRANSPORT MODE

• Can only travel through town, village and airfield hexes, or along roads.

• Cannot enter enemy-owned offroads, towns, villages and airfields.

2.9 BRIDGING

Due to an exceptional lack of water in South America's rivers, no bridging is necessary in the scenario. **ENGINEER** units have no special functions.

2.10 TERRAIN

The effects of different types of terrain upon movement are detailed in the **TERRAIN EFFECTS TABLE** in the **APPENDIX**.

3.0 MODES

3.3 SPECIAL MODE RULES

ENGINEER units are allowed to re-organize.

No unit can enter **RIVER** roads.

4.0 THE ORDER PHASE

NAVAL units cannot use **STRATEGIC MOVEMENT**. They can only be moved with the **MOVEMENT KEYS**.

6.0 AIR POWER

6.1 THE AIR POWER DISPLAY

Hit **C/A** at any time to see an **AIR POWER DISPLAY** like this:

```
NATO 3 - RUSSIAN - 1 -          ALC KEYS
(AIR SUPERIORITY) - SPARE 9 - 0 - 0-9
TACTICAL AIR SUPPORT          8
```

In this sample, the highlighted side, **NATO**, has three-to-one air superiority during this turn. The **NATO** player may allocate up to 9 **SPARE POINTS** toward air superiority in future turns by typing any number up to 9. The **NATO** player may call in up to six tactical air strikes during this turn.

6.2 CALLING AIR STRIKES

If its side has air superiority, and the **AIR POWER DISPLAY** shows available tactical strikes, any unit can call for a supporting strike by:

- typing 0 for its **ORDER** phase.
- typing 5 for **SUPPORT FIRE**.

If a player does not have air superiority, he cannot call for tactical air strikes during that turn.

If the **US** player has air superiority, he will have between 2 and 7 available air strikes. A Russian player with air superiority will have between 0-5 strikes.

6.3 AIR SUPERIORITY

- The **US** player has air superiority during the first two turns.
- The **RUSSIAN** player starts the scenario with no **SPARE AIR POINTS**, and he receives fewer points than the **US** player each turn. It will take five or six turns before he has enough to challenge the **US** player.

7.0 COMBAT

Russian units on coast/beach can attack or fire on **US** naval units, but the naval units cannot attack or fire back at them.

7.2 ARTILLERY DAMAGE

PARA units, like BMD, TANK, and APC units, suffer greater damage from artillery if they are in TRANS, ATTACK or REOR mode.

7.6 RETREATING UNITS

Naval units that are forced to retreat after combat will suffer increased losses instead.

9.0 REORGANIZATION

In addition to the normal rules the US player may use a friendly airfield instead of its HQ (whichever is closer) for reorganization purposes.

10.0 HIDDEN UNITS

PARA units will be exposed during the turn they land, even if the HIDDEN game option has been chosen. They may be hidden in later turns.

11.0 MINES AND NUCLEAR CONTAMINATION

Mines and nuclear contamination play no part in this scenario.

12.0 REINFORCEMENTS

Both sides are scheduled to receive reinforcements during the turns shown on the RDX Data Card.

- RUSSIAN reinforcements arrive at the times shown on the data card.
- PARA units arrive within three hours of the drop zones selected by the computer, or by the NATO Player, if he has used the DROPP ZONE PLACEMENT option (15.6).
- PARA units cannot land on enemy-occupied areas, or on the western third of the map (Sectors 1, 4, 7, or A).
- If a drop zone is too close to the sea or the edge of the map, PARA units may be unable to land, the error signal will sound.
- The PARA drops on Turn 3 and Turn 4 will be delayed one turn if the Russians have air superiority.

US reinforcements arriving by aplane (turns 7, 8 and 9) will land on available friendly airfields. No more than two units will arrive at any field (one unit at night). Friendly units on these airfields will hinder the landing of reinforcements. Russian air superiority will delay all air landing reinforcements for one turn.

12.1 NAVAL UNITS

A US Naval task force, carrying reinforcements for the RDX, arrives in the Persian Gulf during Turns 12, 13 and 14.

- Naval units are moved the same way as conventional units, with the direction keys.
- At sea, Naval units cannot engage in combat, change mode, use the order phase or supply supporting fire.
- Naval units are assumed to be in TRANS Mode. Their movement is reduced if the Russians have air superiority, and by the presence of sighting enemy units.

- Russian units on coast hexes can fire on or attack US Naval units, but cannot be attacked in return.

12.2 LANDING NAVAL UNITS

To land, a naval unit must end its movement phase adjacent to the coast where it intends to land. Any unit which moves at sea cannot land until the next move.

At the beginning of the next move, the unit will be able to move ashore.

- Naval units cannot land on enemy-occupied hexes or enemy-owned towns or village hexes.

12.3 NAVAL UNITS ON SHORE

Once ashore, naval units convert into conventional units, with a reduced movement allowance for the first turn. Upon landing units change automatically to NORM mode (Artillery changes to FIRE.)

13.0 VICTORY CONDITIONS

The game will end after 21, 22, or 23 turns, at the discretion of the computer. The computer will then compare each player's point total and will declare a winner.

Points are awarded as follows:

- 1 point for each enemy unit eliminated
(enemy units which exit the board do not count)
- 1 point for each offfield hex owned
- 2 points for each town or village owned
- 4 points for each airfield owned

A player with ten or more points more than his opponent has won a decisive victory.

14.0 SPECIAL KEYS

The special keys can be used during your own turn when the cursor is flashing, or, by pressing ESCAPE (C-64) F1 during the computer's move.

- If the HIDEEN option was chosen when you set up the game, you cannot use the D (Highlight a DIVISION) or the P (Strategic Map; APPLE only) keys during the computer's move.

15.0 GAME OPTIONS

15.1 SAVING THE GAME

A game may be saved at any time on a second disk by hitting C/B and following instructions. RDP games may be saved on the same disk as GERMANY 1945 or other scenarios.

15.2 RESTARTING A GAME

To restart a game saved on another disk, hit the number of that game option and follow instructions. The names of games available for play will be shown normally. Highlighted names show games that belong to other scenarios, which cannot be played with the RDP disk.

15.3 DROP ZONE SELECTION OPTION

To select the drop zones for the US-PARA units, hit 9 when the OPTION DISPLAY is shown, so that PLACEMENT is highlighted. As the computer directs, move the cursor to each desired drop zone and press RETURN.

- PARA units will land within 3 hexes of the selected drop zones.

- * Deep zones cannot be located in the western third of the map (Sectors 1, 4, 7, or A).

15.7 UPDATED GERMANY 1985 DISK (APPLE ONLY)

If you do not own a 2-D version of GERMANY 1985 (the version number appears in the opening display), you may purchase an update disk directly fromSSI for \$19.00. Please include \$2.00 for shipping and handling. California residents please add 6 1/2% sales tax.

16.0 STRATEGY AND TACTICS

The key to winning RDF is taking and holding airfields, and once more important, airfields.

The Soviet player has the advantage of numbers. The US player has the advantage of superior air support, especially on the first day, and the superior training and equipment of the PMA units.

When playing against the computer, remember that the computer always has enhanced airpower and greater ability to reorganize, to compensate for its lack of flexibility.

It is advisable to avoid a battle of attrition or hurried, uncoordinated offensives, and to concentrate on sharp, well supported attacks to eliminate enemy units.

In effect, when you play against the computer, you are playing against a well-equipped and well-trained enemy, with little imagination and a tendency to go strictly by the book, a type of soldier plentiful in both the US and Red Army.

18.0 ACKNOWLEDGEMENTS

I would like to thank John Gleason, Paul Mchowera, Andrew Traubman, Gregor Wiley, William Thompson and Mike Munser for their help in the design of this scenario.

LIMITED WARRANTY

Strategic Simulations, Inc. (SSI) warrants that the diskette on which the enclosed program is recorded will be free from defects in materials and workmanship for a period of 30 days from the date of purchase. If within 30 days of purchase the diskette proves defective in any way, you may return it to Strategic Simulations, Inc., 883 Sterlin Road, Building A-200, Mountain View, CA 94043. (950) and SSI will replace it free of charge. In addition, if the diskette proves defective at any time after the first 30 days, return the diskette to SSI and SSI will replace it for a charge of \$10.00. Please allow about four weeks for delivery.

SSI MAKES NO WARRANTIES, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SOFTWARE PROGRAM RECORDED ON THE DISKETTE OR THE GAME DESCRIBED IN THIS RULE BOOK, THEIR QUALITY, PERFORMANCE, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. THE PROGRAM AND GAME ARE SOLD "AS IS." THE ENTIRE RISK AS TO THEIR QUALITY AND PERFORMANCE IS WITH THE BUYER. IN NO EVENT WILL SSI BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM ANY DEFECT IN THE PROGRAM OR GAME, EVEN IF SSI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. (SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF IMPLIED WARRANTIES OR LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.)
